ADVANCED WHEEL VISUALISATION APPLICATION

Kustomizor.com.au

Kustomizor is the easiest way to choose wheels for your vehicle.

Simple to use, Kustomizor uses the most advanced fitment database available to present options specific to your vehicle.

Easily adjust the wheels and vehicle. Factory colours for the given vehicle are pre-loaded so that you can see exactly how your vehicle will look with the wheels. You can pick bigger or smaller wheel sizes and Kustomizor will automatically select the correct wheels in that size. When you have chosen your preferred wheels simply click Buy Now to see them in wheeldemon.com.au.

Use Kustomizor in any browser on mobile, desktop, tablet, laptop and touchscreen. Designed and built to run on any OS including Android, Windows, iOS and macOS.

Go to kustomizor.com.au and you'll find quick instructions to get you started. If you're already familiar click on Start Kustomizing.

Pick your vehicle make, model and variant. Choose a wheel size you're interested in and you're done.

Kustomizor allows you to choose different wheel sizes and shows you exactly what will fit in a given size. You can change the colour of the vehicle to closely match yours.

When you've found a suitable combination you can see more details or go and purchase via Buy Now.
